| S | Serbian Spruce | 5-9' |
| Concession stand entrance | | |

****Only pick trees with tags on them.** Once you select your tree, tear off the small portion of tag at the perforation. Let a worker know which tree you picked. Take the tag and pay for the tree in the gift shop. Once completed show the worker the tag that it was paid for and get your tree. **

Any tree over 12 foot may take longer to cut and remove from the fields. These trees may need 2 or more workers. Some of the trees have been in the fields for over 20 years and weigh over 200 pounds. Check price before cutting!
